

### Fees for writing immigration reports and services

Assessment fees are \$115 for a 50-minute hour session. Most cases require an initial session of 1 ½ hours with one to three more sessions. On occasion, more sessions are necessary. If needed, telephone conversations are \$15 per 15 minute increment starting at anything over 5 minutes. See the consent to treat for further explanation of these fees and examples of what may be considered case management services. The fee for the report is \$750 if only one person is being evaluated in the report. If more than one is evaluated for the report the fee for the report is \$850. Court fees are \$250 an hour. See consent to treat for further explanation of these fees.

See consent to treat for a more detailed explanation of fees.

An example of a typical case (usually three to four cases)=

\$115.00 50 minute evaluation

\$750.00/850 report

\$115.00 second session

\$115.00 third session

+\$115.00 fourth session.

\$1095.00 - \$1310 total (\$1095.00 if there are three sessions and one client and \$1310 if there are four sessions for two or more people being evaluated)

All fees are required at the time of service. The fee for the report is required before the report will be released. The fee for the report is required if services are cancelled after having began services with me as I begin working on your report after the first session, continuing to make changes as we meet together.

I will provide the attorney on the case with the original report and you with a copy or the original directly to you, depending on your preference. The report will be written in English.

The assessment will assist in helping the therapist make a recommendation in a report for what is believed to be in the best interest of the client (and their family if applicable) in regards to immigration. While the assessment can be considered a useful tool to make a stronger case, this assessment does not guarantee the client's satisfaction with the outcome of the case or/and the report.
